Local Authority Parking Finances in Scotland 2020-21

This note covers parking finances for the 32 local authorities in Scotland. They are required to submit details of their finances to the Scottish Government annually in a standard format. The figures are normally published in March, nearly a year after the financial year end. This note looks at the section on parking income and expenditure for 2016-17 to 2020-21 and is based primarily on Scottish Local Government Finance Statistics data (Scottish Government (2022)), as well as data reported by English and Welsh Local Government authorities which is used for comparison, all of the sources of which are listed in the references¹. N.B. Aberdeen City does not publish its data in the LGF figures and therefore data has been extracted from its annual accounts where necessary (see Aberdeen City Council (2019 and 2020)).

In addition, Transport Scotland is now publishing an annual report on decriminalised parking - the latest being: *Decriminalised Parking Enforcement – Local Authorities' Income and Expenditure:* 2020 to 2021 (Transport Scotland (2022)), which follows on from a report *released* in 2016 by the Scottish Parliament Rural Economy and Connectivity Committee that showed for the first time the number of Penalty Charge Notices (PCNs) issued and penalty income raised in Scotland for the years 2013-14 to 2015-16 (Transport Scotland (2016)).

The Transport Scotland report deals with the statutory returns which are required by councils operating Decriminalised Parking Enforcement (DPE) to show how the surpluses are reinvested in transport activities. The local finance figures also include non-DPE activities, primarily off-street parking.

1 Introduction

Table 1 shows that as of the end of 2021, 21 councils were operating DPE (using local traffic wardens and civil enforcement), while two more were actively working towards DPE. The remaining ten authorities were not currently considering DPE, but still use fixed penalty notices issued instead of fines enforced by the Justice of the Peace courts. See Figure 1 for the map².

¹Contains public sector information licensed under the Open Government Licence v3.0.

²Boundary data for this and all further maps is from Office for National Statistics (2017). Contains public sector information licensed under the Open Government Licence v3.0.

Police Scotland no longer enforces parking offences but now deals only with dangerous parking (e.g. on pedestrian crossings) by local arrangement. Several of the authorities not using DPE have rejected it because of the cost of setting it up and running it for the small number of parking offences.

Table 1: Parking arrangements for local authorities in Scotland

Using DPE	Considering using DPE	Not using DPE
Angus (2017)		Aberdeenshire
Argyll and Bute (2014)		Clackmannanshire

2 Summary

Table 2 and Figure 2 show the summary accounts for local authorities in Scotland for fiscal years 2016-17 to 2020-21. The income has fallen by 54.0%, the expenditure has stayed approximately the same, and the surplus has fallen by 103.9% compared to the previous fiscal year. Total transport expenditures have stayed approximately the same and the surplus now represents -0.4% of net transport expenditure. Parking makes a NA contribution to overall transport expenditure in Scotland compared with England where it is NaN% of total transport.

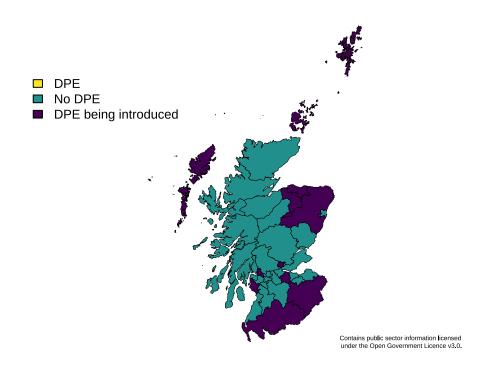

Figure 1: Map showing implementation of decriminalised parking in Scotland (Boundary data for this map is from Office for National Statistics (2017))

Table 2: Summary of parking accounts for Scotland (£ millions)

		2016-17	2017-18	2018-19	2019-20	2020-21	Change 2020-21 on 2019-20
	Income	82.6	88.2	88.6	92.8	42.7	-54.0%
Parking	Expenditure	40.0	43.6	41.6	43.5	44.7	2.6%
	Surplus	42.6	44.6	47.0	49.3	-1.9	-103.9%
Total transport	Net expenditure	412.9	426.7	375.3	366.0	456.0	24.6%
	Parking surplus as percentage of net transport expenditure	10.3	10.4	12.5	13.5	-0.4	

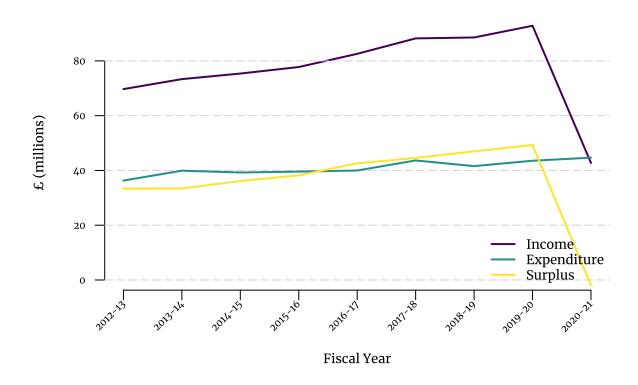

Figure 2: Parking revenues-Scotland

Since 2016-17 income has fallen by -48.2% and expenditure has risen by 11.7%. Over the same period the surplus has fallen by -104.5%. Figure 2 gives a longer term overview of the trends in incomes, expenditures and surpluses.

Table 3: Comparison of parking income and expenditure in across the nations of Great Britain (£ millions, latest year available)

	England without London	London	Scotland	Wales	Great Britain
Fiscal year	(2018-19)	(2018-19)	(2020-21)	(2020-21)	(2019-20)
Parking income	1021.3	728.0	42.7	17.0	135.8
Parking expenditure	539.6	273.5	44.7	26.3	28.1
Surplus	481.7	454.4	-1.9	-9.2	107.7
Surplus as proportion of income	47.2%	62.4%	-4.5%	-54.1%	79.3%

Table 3 provides a comparison with London, England excluding London, and Wales for the most recent available data, while Table 4 compares the changes between 2020-21 and the previous year, with the average annual change over the four-year period starting in 2016-17 (or the most recent four-year period for which data is available). In the last year the surpluses for Scotland have decreased by -103.9%, which is NA than the average annual increase observed over the preceding four years, which was NA%.

On average, parking surpluses in Great Britain have decreased by about 89.7% annually over the four years compared with 2.8% annually for the Retail Prices Index during the same period (Office for National Statistics (2023)).³

Table 4: Changes in parking income and expenditure over previous four years (from most recent year available) across the nations of Great Britain

	England without London	London	Scotland	Wales	Great Britain
Most recent year available	(2018-19)	(2018-19)	(2020-21)	(2020-21)	(2019-20)
Average annual change in income Change in income since previous year	4.3 %	5.8 %	-15.2 %	-17.9 %	-46.1 %
	4.2 %	7.1 %	-54.0 %	-60.4 %	-92.8 %
Average annual change in expenditure Change in expenditure since previous year	2.8 %	0.0 %	2.8 %	2.9 %	-56.8 %
	5.1 %	-0.1 %	2.6 %	-270.4 %	-96.6 %
Average annual change in surplus	6.1 %	10.2 %	NaN %	NaN %	-39.5 %
Change in surplus since previous year	3.1 %	11.9 %	-103.9 %	-115.8 %	-89.7 %

³The most recent data available for Great Britain as a whole is from the year 2019-20 and all calculations are therefore performed for the four years previous i.e. from 2015-16.

3 Income

Total council parking income from all sources in Scotland for 2020-21 was £42.7 million, 54.0% lower than 2019-20. Note that this includes meter and penalty income for on- and off-street parking, but does not include income received by private parking companies. Table 5 ranks the Scotlish councils in terms of parking income.

In Scotland as a whole One council increased their income over the past year and 28 decreased their income. Another three councils' incomes stayed the same. The changes from 2019-20 are mapped in Figure 3. The annualised changes over the previous four years are plotted in Figure 4, using the same colour palette.

The top three Scottish cities by income were Edinburgh City, Glasgow City, and Aberdeen City, and between them accounted for 73.5% of parking income.

The three councils which had the largest year-on-year percentage increases in income were East Lothian (up 26.1%), South Ayrshire (up -34.6%) and Midlothian (up -35.4%). North Lanarkshire, West Dunbartonshire, and West Lothian showed a larger percentage change but parking income was under £30,000. The biggest decreases were in Aberdeenshire (90.3%), and Moray (88.5 %) (excluding East Renfrewshire, and Dumfries and Galloway where income was under £30,000).

East Ayrshire	13.8%	10.4%	21.1%	18.5%	18.9%
East Dunbartonshire	77.9%	53.1%	35.0%	35.3%	63.2%
East Lothian	33.5%	60.9%	65.5%	63.1%	38.8%
East Renfrewshire	97.9%	98.7%	93.0%	86.5%	76.8%
Edinburgh City	18.6%	18.1%	16.3%	17.6%	14.3%
Fife	17.7%	16.4%	15.9%	13.1%	14.6%
Glasgow City	23.8%	22.0%	26.0%	25.6%	26.3%
Highland	3.9%	11.8%	12.0%	11.4%	17.3%
Inverclyde	81.5%	70.5%	81.3%	78.3%	71.6%
Perth and Kinross	10.8%	16.0%	16.6%	14.8%	17.7%
Renfrewshire	15.5%	17.6%	15.2%	14.7%	16.4%
South Ayrshire	16.7%	21.8%	22.3%	40.4%	23.9%
South Lanarkshire	32.1%	30.7%	31.5%	32.2%	67.2%
Scottish DPE authorties	20.0%	20.0%	20.0%	20.6%	20.9%
London	42.0%	43.1%	45.1%		
England without London	12.8%	13.8%	12.3%		

Scottish councils with DPE earn 32.0% of their income from PCNs (see Table 7).

4 Expenditure

Table 8 ranks the councils in terms of expenditure on parking.

Overall expenditure has risen by £1.1 million (2.6%) after a rise of £2.0 million last year.

In Scotland as a whole Nine councils increased their expenditures over the past year and 22 decreased them. Another single council's expenditure stayed the same. The changes from 2019-20 are mapped in Figure 5. The average annual changes over the previous four years are plotted in Figure 6, using the same colour palette.

The largest increase in expenditure occured in Glasgow City where it increased by 72.7% while South Ayrshire and East Dunbartonshire increased by 31.6% and 17.4% respectively. The biggest decreases were in East Renfrewshire (51.2%), and East Ayrshire (44.8%) (excluding Shetland Islands with expenditure under £30,000).

The table also shows the proportion of income taken up by costs in 2020-21. Nationally in Scotland it is 104.5% with Glasgow at 34.5% and Edinburgh at 188.0%.

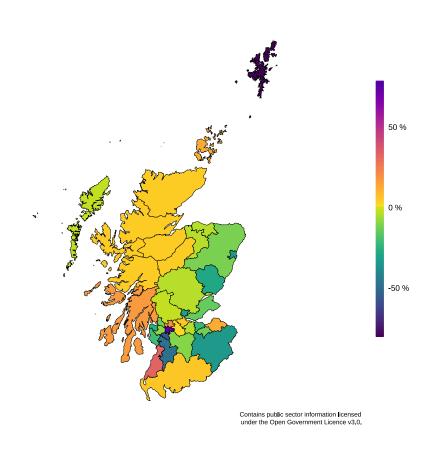

Figure 5: Map of change in parking expenditure from 2019-20 to 2020-21 (Boundary data for this map is from Office for National Statistics (2017))

Orkney Islands	134	134	136	142	158	11.3%	4.2%	229.0%
Angus	190	159	139	210	152	-27.6%	-5.4%	190.0%
Na h-Eileanan an Iar	102	130	115	118	115	-2.5%	3.0%	575.0%
West Dunbartonshire	77	98	91	104	91	-12.5%	4.3%	
Clackmannanshire	0	0	43	56	39	-30.4%		216.7%
Shetland Islands	36	24	33	97	25	-74.2%	-8.7%	192.3%
North Lanarkshire	0	0	0	0	0	0.0%	0.0%	100.0%
Total	39,972	43,648	41,582	43,541	44,667	2.6%	2.8%	104.5%

Table 9 shows the proportion of income taken up by expenditure over the previous four years. Across Scotland it was 104.5% compared to 46.9% in the previous year.

Edinburgh's expenditure was 34.5% having risen since last year, and Glasgow's has risen to 188.0%. Care should be taken in interpreting the percentages towards the bottom of the table, as the very low parking incomes can lead to extreme values which are less meaningful.

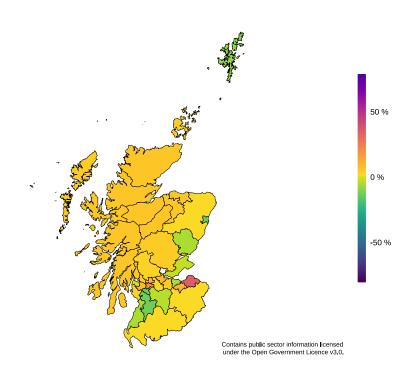

Figure 6: Map of average annual change in parking expenditure over the past four years from 2016-17 to 2020-21 (Boundary data for this map is from Office for National Statistics (2017))

5 Surpluses

Table 10 shows the parking surpluses from 2016-17 to 2020-21 and the change from 2019-20 to 2020-21. It also shows the proportion that parking surpluses represent of total transport expenditure.

The total *surpluses* for Scotland amounted to £14.2 million between 4 authorities, of which the top three—Edinburgh City, Aberdeen City, and East Lothian—accounted for 100.0%. 28 councils made a loss with the total of parking deficits rising to £16.1 million from £1.7 million last year.

Overall, parking contributed £-1.9 million to local authority finances in Scotland in 2020-21 compared with £49.3 million in 2019-20.

East Lothian increased their surplus by 361.9% while Edinburgh City and Aberdeen City increased by -46.9% and -77.9% respectively (excluding North Lanarkshire with a surplus under £30,000). The biggest decreases were in Aberdeen City (77.9%), and Edinburgh City (46.9%).

Aberdeenshire increased their deficits by 322.5% while Na h-Eileanan an Iar and Midlothian increased by 102.1% and 50.0% respectively (excluding Shetland Islands with a deficit under £30,000) The biggest decreases were in East Renfrewshire (28.3%), and Scottish Borders (19.1%)

6 Comparison between Local Government Finance figures and Transport Scotland decriminalised parking enforcement figures

As mentioned in the introduction, there are now two sources of information from Scottish local authorities giving the income, expenditure and surpluses for parking: the Local Government Finance (LGF) figures, which cover all the parking activities; and the Transport Scotland figures (for those authorities operating DPE), which cover only the statutory elements of on-street parking and penalties, and do not include council-run off-street parking. Table 11 compares the two sets of figures. The differences between the two sources may not be due solely to off-street income and expenditure only being included in the LGF figures as it is possible that councils use different figures for overheads and other costs in reporting the two sets of figures. Also, Aberdeen City does not publish its data in the LGF figures and therefore this data has been extracted from its annual accounts (see Aberdeen City Council (2019 and 2020)).

The biggest difference in reported income is in Highland where the LGF figures show £0.9 million more income than the Transport Scotland set. Its expenditure is reported by LGF as £0.8 million higher, making the difference in the two surpluses £0.0 million. Glasgow's off-street car parks and on-street enforcement have been run by City Parking (Glasgow) LLP, a wholly-owned subsidiary of Glasgow Council since 2007.

In Edinburgh City, the LGF income is £0.8 million higher. On the other hand Glasgow City has LGF income £2.2 million less than the DPE income, and Aberdeen City has LGF income reported to be £0.5 million less.
